

ID: CAND-003 | LEVEL: Junior | PROFILE: ML Scientist/Engineer | YEARS OF EXPERIENCE: 1

PROFESSIONAL SUMMARY:

Junior data scientist with a background in statistics and machine learning. Experience in academic projects on text classification and predictive modeling.

EDUCATION:

B.Sc. in Applied Mathematics. Diploma in Data Science.

WORK EXPERIENCE:

- Jr Data Analyst (1 year): regression and classification models with scikit-learn, exploratory data analysis.

TECHNICAL SKILLS: Python, scikit-learn, Pandas, NumPy, statistics, basic NLP, matplotlib

SOFT SKILLS: analytical thinking, curiosity, communication of results

CERTIFICATIONS: Coursera - Machine Learning (Stanford)

LANGUAGES: Spanish (native), English (intermediate, B2)

RELEVANT PROJECTS:

- Tweet sentiment classifier with TF-IDF and logistic regression.
- Demand prediction model for a university project.
