

ID: CAND-010 | LEVEL: Semi-Senior | PROFILE: ML Scientist/Engineer | YEARS OF EXPERIENCE: 5

PROFESSIONAL SUMMARY:

Machine Learning engineer experienced in NLP and transformer-based models, from training to production deployment.

EDUCATION:

M.Sc. in Data Science.

WORK EXPERIENCE:

- ML Engineer (3 years): fine-tuned transformer models for text classification and NER; deployed models as services.
- Data Scientist (2 years): predictive models and experimentation.

TECHNICAL SKILLS: Python, PyTorch, transformers (HuggingFace), NLP, tokenization, MLflow, Docker, scikit-learn, FastAPI

SOFT SKILLS: analytical thinking, communication of results, collaboration

CERTIFICATIONS: DeepLearning.AI - NLP Specialization

LANGUAGES: Spanish (native), English (advanced, C1)

RELEVANT PROJECTS:

- Document classification system with fine-tuned transformer models.
- Reproducible training pipeline with MLflow.
