

ID: CAND-012 | LEVEL: Semi-Senior | PROFILE: Software Developer/Architect | YEARS OF EXPERIENCE: 5

PROFESSIONAL SUMMARY:

Backend developer experienced in distributed systems, high-performance microservices, and API design in Python and Go.

EDUCATION:

B.Eng. in Software Engineering.

WORK EXPERIENCE:

- Senior-track Backend Developer (3 years): designed scalable microservices, performance optimization, and distributed systems.
- Backend Developer (2 years): REST APIs and asynchronous messaging.

TECHNICAL SKILLS: Python, Go, microservices, distributed systems, Kafka, PostgreSQL, Docker, Kubernetes, performance optimization

SOFT SKILLS: problem solving, mentoring, communication

CERTIFICATIONS: Certified Kubernetes Application Developer (CKAD)

LANGUAGES: Spanish (native), English (advanced, C1)

RELEVANT PROJECTS:

- Microservices platform for payment processing.
- Latency optimization that reduced response time by 50%.
