

ID: CAND-017 | LEVEL: Senior | PROFILE: Data Engineer | YEARS OF EXPERIENCE: 10

PROFESSIONAL SUMMARY:

Senior data engineer with a decade of experience designing large-scale distributed data architectures and leading data platform teams.

EDUCATION:

M.Sc. in Software Engineering.

WORK EXPERIENCE:

- Lead Data Engineer (5 years): architected distributed data platforms, petabyte-scale processing with Spark, and performance/cost optimization.
- Senior Data Engineer (5 years): designed critical pipelines and mentored engineers.

TECHNICAL SKILLS: Python, Scala, Apache Spark, Kafka, Airflow, distributed systems, parallel computing, AWS, performance optimization, data pipelines, Kubernetes

SOFT SKILLS: leadership, technical communication, architecture vision

CERTIFICATIONS: Databricks Certified Data Engineer Professional

LANGUAGES: Spanish (native), English (advanced, C1)

RELEVANT PROJECTS:

- Distributed data platform processing petabytes daily.
- Org-wide data quality and observability framework.
