

ID: CAND-018 | LEVEL: Senior | PROFILE: ML Scientist/Engineer | YEARS OF EXPERIENCE: 9

PROFESSIONAL SUMMARY:

Senior ML engineer specialized in NLP and large language models, experienced in training, fine-tuning, and deploying transformers in production.

EDUCATION:

Ph.D. in Artificial Intelligence (NLP).

WORK EXPERIENCE:

- Senior ML Engineer / Research Engineer (5 years): trained and fine-tuned large-scale language models; worked with transformer architectures and tokenization.
- ML Engineer (4 years): deployed NLP models and ran experiments.

TECHNICAL SKILLS: Python, PyTorch, transformers, LLM, tokenization, NLP, distributed computing, MLflow, training optimization

SOFT SKILLS: scientific thinking, communication, research collaboration

CERTIFICATIONS: NVIDIA Deep Learning Institute - LLM

LANGUAGES: Spanish (native), English (fluent, C2)

RELEVANT PROJECTS:

- Fine-tuned an LLM for a specialized domain with efficient techniques (LoRA/QLoRA).
- Applied research on tokenization strategies for low-resource languages.
